

# Merging with your Lifetime Guide

As you move into Conscious Channeling, the aspect of you that is housed in the cylinder merges with the aspect of your Lifetime Guide, and you form a 3<sup>rd</sup> being or entity that consists of both of your aspects.

# Verbal Channeling

The information that you channel is delivered to your fifth chakra, and communicated using the collaborative vocabulary of your merged aspect. Sometimes the words used in channeling are not ones that are part of your everyday vocabulary.
