## Infusing Etheric Chakras

# Infusing Etheric Chakras

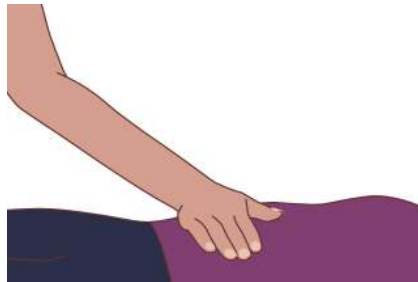

Reaching outside of your field, gather a ball of Prana into your hands.

Hold the energy in your hands until you can feel it resonating and vibrating comfortably.

Bring the ball of energy to your client's body, directly over the chakra that you'll be infusing with Prana.

In this instance, one hand is on the Etheric 3rd chakra, infusing Prana into the chakra. If infusing the Etheric 1st chakra, your hand will hover as close as possible to the chakra, with the hand tilted in the same manner used when clearing. The other hand goes behind your back, so you retain your focus on Infusing rather than clearing the chakra.
